## PLAYING EQUIPMENT

The tournament will only be played with official Mlkky sets from Tactic Games Oy. It is not allowed to play with equipment other than the ones provided by the organisers, e.g. players' own throwers.

The throwers provided by the organisers will be numbered according to the numbering of the playing fields and, as a rule, must only be used on the lane whose number corresponds to the thrower number. Any changes in this respect can only be made by a main referee. The final match of the EM main tournament will be played with a new Mlkky set and a new thrower.

## RULES

### Main rules

All EM tournaments shall be played in accordance with the official Mlkky rules as contained in the [Tournament Rules document](#) published by the IMO (version 11.02.2024).

In matches of all EM tournaments, there is no time limit for throwing, unless a referee decides to introduce a time limit for the match. If a time limit is introduced, the time is measured from the moment the team has physical access to the thrower (e.g. by being handed or placed in the throwing area by the referee or the opposing team) when all the skittles have been set upright until the moment the thrower is released from the throwing player's hand. The throwing time includes both consultation within the team and preparation for the throw itself.

The organisers encourage a fair play rule of throwing in a reasonable amount of time, no longer than necessary. **If there is a risk of delaying the planned timetable, strict adherence to Rule 9.2 of the aforementioned Official Rules will be required - i.e. a maximum of 60 seconds to make a throw.**

**In the event that either team exceeds the 50-point mark for the third time in a set and the score drops to 25 points, they will lose the game to their opponent at that point with a score of 25:50.**

In all EM tournaments the rule is: 1 player - 1 team. This means that one person cannot play on more than one team within one tournament.

In all EM tournaments, changes of players (within the team line-up) may only take place between sets and matches. No changes in the playing line-up of a team are allowed during a set.

**A maximum of 15 throws are allowed in each set in Warm-up tournament.**

If after 15 throws both teams have the same number of points and neither team has reached 50 points, each team throws one more throw. Whoever throws the higher value (regardless of the 50 point limit) on this last throw wins the set.

For example, after 15 throws, both teams have 47 points. Team A rolls 7 points, Team B rolls 4 points. Team A wins the set with a score of 48:47 points.

In the case of the Beach opening tournament, the maximum number of throws for each player is 12 per set. In the event of a tie, 1 extra throw as described above will break the tie.

## Reminder

All elements outside a playing field doesn't count. If the thrower (Tikku) touches an element outside a playing field and then knock down one or more skittles, the latter skittles are not counted as for any other throw.

If 1 (or more) skittle goes outside the playing field or lay on an edge or outside the playing field, this skittle (or more) is considered as fallen and count as such.

Overstepping the mölkkari up front or sideways is prohibited and the throw will be counted as a miss.

## Order of throwing

In the group matches of the EM Main Tournament, 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup> round of play off and quarterfinal of play off phase, the Warm-Up Tournament and the Beach opening, the team written first (top or left) on the scoresheet starts the first set.

In semifinal, final and bronze medal match of EM main tournament, final and bronze medal match of B tournament, the start of the first set is decided by a draw (in non-refereed matches, the teams involved in the match are responsible for conducting the draw - the draw can be conducted, for example, by tossing a coin or a thrower).

In knockout matches of all EM tournaments, the team which throws first in the deciding set shall be decided by the number of points scored in the sets played so far in the match. In the event of a tie in points, the mölkkout (3 throws for each team) is held to decide which team starts the deciding set. It applies to all games including semi-finals and final.

# TOURNAMENT

## Information display

### Warm-up

A ranking of all teams is updated, by a software, after each round and will be projected on the monitor at the organizers' court.

### EM

A list of all games on a given course is listed in the score sheets on each course.

A scoreboard and scoresheet are available aside each field. The teams will record their scores and the winning team will take the results to the organizers' main desk. Group results will be updated regularly and displayed on the monitor at the organizers' desk.

## DRAW OF GROUPS, DISTRIBUTION

The group line-ups for the group phase of the EM main tournament will be drawn by organisers and/or one of the main referees.

The EM main tournament draw will take place on Tuesday June 18th at 6 pm CET.

After the draw, it will no longer be possible to modify the composition of a team

The EM main tournament draw and time schedule will be released on Wednesday June 19th at 6 pm CET on the Organiser's page [www.euromolkky.cz](http://www.euromolkky.cz)

### Beach opening draw

For the Beach opening tournament, the 48 registered players were divided into groups of 3 players who will play together in a so-called "Finnish group. After playing 3 sets, where each participant will start one game, once as the second player and once as the third player, the players will be redistributed into new groups and the whole 3 set game will be repeated a total of 4 times.

Remember, this is just a beach opening to have some more fun!

### Warm-up draw

Since there are 30 local teams and 30 non-local teams in the competition, we sorted and seeded the participants so that each local team would compete against 3 local and 3 foreign teams, as well as each foreign team would meet 3 other foreign and 3 domestic teams. After

playing 6 games of 2 sets each, the teams will be ranked by the number of sets won or small points scored and the top 6 teams will be awarded medals.

Remember that this is a warm-up round!

## EM Draw

The draws for both the main tournament and the Warm-Up tournament will be held according to the following procedure:

- The 72 teams will be divided into 8 groups of 9 teams
- The 22 Czech teams will be distributed among the 8 groups.  
This means that there will be 3 Czech teams in 6 groups and 2 Czech teams in the other 2 groups.
- The 15 Polish teams will be distributed among the 8 groups.  
This means that there will be 2 Polish teams in 7 groups and 1 Polish team in the other 1 group
- The non-czech and non-polish teams will be distributed in the 8 groups, knowing that two teams from the same non-czech nation cannot be in the same group.

### PROCEDURE :

In order to have a harmonious distribution of teams within the 8 groups, the non-Czech teams will be grouped in “pots” by nation. Then, we will start by randomly drawing the nation that will be distributed first in the group. When all the teams of a nation have been distributed, we will draw a new non-Czech nation and so on for the 14 nations.

The first team drawn will go to group A, the second to group B, the third to group C ... until group Z. When we have reached group Z, the next team will go to group A and so on.

It will be the same procedure for the czech teams, we will start by group 1 in order to harmonize the drawing, then pick a random “pots” and so on.

### **NATION'S CUP DRAW**

As the Nations Cup tournament will be played straight through a play-off system due to time constraints, the individual nations have been assigned to their respective seeding positions according to the current ranking of that nation according to the official IMO rankings (calculated over the last 5 years).

To complete the 16 teams, 2 additional teams were added to the 14 participating nations - the Czech U21 team and the VIP wild card team.

The final result of CZE U21 or VIP wild card team will not count for the nation trophy.

For example, a final between CZE U21 & Estonia means Estonia already won the nations trophy.

The EM Nations Cup will be played in a play-off phase format. **Each country has selected one team (3 + 3 players) in the tournament.** In accordance with IMO documents, the lineups of the national teams of countries with national Mólky federations have been decided and passed to the organisers by their national federation. In case of countries without federation, the lineups have been decided among the players from the given country.

In the situation that only 2 players from a participating country are present in the main tournament, they may supplement their national team for the European Cup with a substitute from another country. This player may not represent both countries in the European Cup at the same time.

All matches are played "best of 3" (race to 2).

Ranking games for places 5-16 will be played in addition to the semi-finals, final and 3rd place match.

The first set will start with the team that is listed first on the entry sheet.

In the semi-finals and finals, the draw will decide which team will start the first set.

If the schedule is adhered to, the finals could possibly be played in a "Best of 5" format (if both teams agree).

## REFERRING

The main referees are responsible for the proper course of the tournaments and their compliance with the rules and will be clearly introduced to the participants before the tournaments begin. The organisers may also appoint additional referees to ensure that the tournaments run smoothly.

Decisions made by the main referees are final.

When a game is supervised by a referee, only the team captains are allowed to talk to the referee.

From semi-finals onward, there will be one referee per match to lift up the skittles.
